To the Livingston County Board of Supervisors:

I am pleased to present to the Board of Supervisors, and the residents of Livingston County, the tentative budget for Fiscal Year 2023. Included in this tentative budget submission are required and ancillary documents to support the overall financial reports:

- Summary Document
- Expense and Revenue Estimates
- Position Control reports
- Assessment Report
- Fund Balance position statements
- Debt Schedule

The proposed county tax rate, due to assessment increases, will actually go down considerably, should this tentative budget be adopted. Countywide assessment grew by almost \$1 billion dollars which drives down the tax rate. The tax rate will therefore be \$6.46 in 2023, down \$1.31 or a 16.9% reduction. Many elected officials across the state like to point to this fact and comment that “taxes are going down” and have a sometimes misleading approach to budget transparency, in my opinion. There is, at times, a focus solely on the tax rate. Therefore, let me be clear - for the majority of the taxpaying public in Livingston County, taxes will go up. For the average single family homeowner, county taxes will increase by about \$40.00 a year (on average) or less than \$3.50/month. For those who saw their assessment go down or stay flat, they will receive a small reduction. Across all property tax classifications, 4% of all properties went down in assessed value this year. An additional 8% of all properties had no change in assessed value this year. The rest, approximately 88%, saw an increase in assessment to reflect a right-sizing to market conditions.

Here are the particulars:

The tentative budget calls for a tax rate of \$6.46, down \$1.31 or 16.9% from the 2022 rate. Our tax levy, the total amount of taxes collected from properties in the county, however will increase - an uptick of approximately 4.62%, or ~ \$1.36MM. This increase is outside of the county’s calculated “cap” figure of approximately 3.0% and therefore necessitates an override vote of the Board.

This represents a situation where we have a tentative budget submission that cuts the tax rate but increases tax levy. This is due to two factors – 1) needing additional tax levy support for the funding of the overall county budget, and 2) assessment growth.

An average homeowner with a single family home formerly assessed at \$135,227 will see their county tax bill increase \$40 under this plan:

$$\$135,227 \times \$7.77/1000 = \$1,051$$

$$\$169,034 \times \$6.46/1000 = \$1,091$$

I also draw your attention to our two-year trend. The County tax levy went down in 2022 by 1.83% because we were in a slightly different financial situation, immediately post-Covid if you will, with sales tax, tourism and commerce rebounding and some additional inflows of Federal revenues. The Board of Supervisors has always been fair and transparent with our financial needs as they relate to taxation. When we feel the need to present a spending plan with an increase, we propose a plan accordingly. When we have felt the justification to stay flat or go down in both the rate and the levy, we have done so. In this case, for 2023, with trend lines and inflationary pressures and the costs of salaries, benefits, commodities and equipment, we are proposing to go up approximately 4.6%. With our reduction in 2022, this keeps with our smoothing plan to stay in the range of ~2-3% per year if the metrics dictate. The 2022 approved county budget cut taxes by \$551,000. The average single family home county tax bill in 2021 was \$1,080. This 2023 plan therefore represents a restoration of some dollars, and a small increase on top of that, that was cut over the previous fiscal year. For most of these residents, the 2023 tax bill will be less than a 2% increase on their 2021 bill and a larger percentage increase versus their 2022 bill due to our one-year dip.

As aforementioned, this tentative budget proposes approximately \$1.36MM more in taxes in 2023 versus 2022. In other words, we are saying with this budget, we need that much more money to bring the budget into balance. The cost of fuel, gas for buildings, and commodity and contractual expenses alone rose close to this number. Insurance, training, and cost-of-living / merit pay increases for our staff of hundreds was also included this year as the County looks to stay competitive in a very challenging market for the retention and attraction of top talent in the labor pool. The budget accounts for a series of substantive changes to the compensation packages of our county personnel and that is a significant “cost of doing business” as a large, multi-tiered, multi-purposed organization.

Budget Landscape

The 2023 budget is balanced and is compliant with the NYS property tax cap law insomuch as the County Board of Supervisors is planning a separate public hearing to consider an override. An override of the tax levy limitation has never been considered, nor adopted, by the Board since the implementation of the cap in FY 2012. The cap law is set with a “cap” (which is not a true cap) of 2% and was created in an environment where and when this would have been an appropriate figure with inflationary and market trends at the time. In 2022-2023, we have a recessionary economic environment with staggeringly high inflation that has been as high as 8-9%, in recent reports. Couple this with a labor market that has shifted greatly as a result of the Great Resignation, and you have a situation where a 2 or 3% adjustment is not satisfactory.

Sales tax revenues remain our largest individual revenue center and those returns are budgeted to increase to \$41.5MM. Expenses across all the funds are slated to increase some \$12.2MM to approximately \$180.6MM versus the all-funds number of \$168.4MM in 2022. Personnel expenses, insurance increases, new benefits, new grant cost centers, and some additional personnel are the biggest factors leading to the increase. \$140.7MM in non-property tax revenues are used to support operations across all the funds. This is up from \$131.2MM in 2022. As you can see, many of our expense increases are offset, at least partially, by new revenues including items like grant revenues, sales tax increases, chargeback revenues (e.g. EMS), and state and federal aid reimbursement increases. The gap that remains is the difference in expenses and revenues and is made up with a combination of fund balance and a tax increase to the levy.

The largest issue in the budget remains the long-term and short-term financial sustainability of the Livingston County Center for Nursing and Rehabilitation (CNR). The CNR has, for more than a few years, relied heavily on their reserves – coupled with the Intergovernmental Transfer program (IGT) which is Federal revenue of about \$5MM – to support their \$30-32MM operation. The impacts of Covid, new regulations, admissions and staffing challenges, minimum staffing mandates and the enhanced use of agency/contract staffing have led to an untenable situation. However, the County is turning the corner. Shortly after mid-year, we made a concerted effort to fix many issues:

- We increased admissions by 8.5% which will eventually result in hundreds of thousands of dollars in additional annual revenues.
- The Board approved a consultant agreement to assist in the preparation, eventual submission and post-submission advocacy of a Vital Access Provider (VAP) grant application which will be a multi-million dollar request.
- Contracts were renegotiated for cost saving maximization.
- Insurance contracts were amended (bettered) and added (when one was not present) which will allow for increased admissions moving forward.
- The Board approved a \$2.5MM one-time transfer from the County's General Fund.

These efforts in part will stymie the fiscal negatives towards year-end. The 2023 budget shows a gap of nearly \$6MM. This will be made up "off budget," per se, in that it will come from fund balance, but in this case the General Fund balance. I cannot be clearer about the precariousness of this situation. The County cannot afford multiple years of \$6MM+ transfers from General Fund reserves to sustain the CNR operationally. The needle needs to move appreciably on three things:

1. Reduction in agency / contract nurse use.
2. Expansion of our own internal workforce numbers.
3. Sustainable, substantial uptick in our census to the 85% range by year-end 2023.

I am sure we can realize these efforts and get them done by mid-year. We have an all-hands-on-deck approach with our leadership team and are dedicated to improving the financial situation and returning the CNR to the outcomes we are accustomed to experiencing.

Impacts from New York State

As usual, there are some impacts and items to note in this budget related to New York State government activity (or inactivity). As a provider and partner to New York State government for many mandated programs, we have some items worth noting:

- NYS Medicaid Reconciliation - unfortunately this is a carryover from our 2022 budget message. Livingston County is still owed millions of dollars in reconciled Medicaid payments
- The Shared Services program – We received over \$300,000 in reimbursements for our 2020-2021 plan year in 2022 and are planning another robust and comprehensive, multi-million dollar plan with adoption expected in mid-November and implementation in 2023.
- Medication Assisted Treatment – expanded (mandated) health care and drug treatment services newly required at the County Jail will add some additional expense burdens on the County budget in 2023.
- Nursing Home impacts – 1) the State and Federal government should consider altering the mandate on vaccination status of health care workers due to staffing concerns 2) the State minimum nurse staffing requirements are also an onerous newly effective (April 2022) mandate
- Public Defense / District Attorney – our Public Defender and Conflict Defender office budget requests both include large budgeted revenues for expense offsets. However, NYS has not prioritized equitable funding for prosecution.
- NYSRS – Pension expenses are slated to increase some due to the market performance (under performance against budget) and the pension system's reliance on these expected returns to level and smooth employer contributions.

Looking Forward: Preparing for Economic Uncertainty

Our fiscal situation is strong, so strong in fact that we can afford, per se, to draw on our reserves in a time of fiscal calamity like we are experiencing with the nursing home. We were recently ranked as one of the healthiest counties fiscally in the NYS Office of the State Comptroller rankings. Our bond ratings are some of the best per capita in the State. We have a strong 5-year Capital Improvement Plan (CIP) and have millions left to spend in unappropriated ARPA allocations. These are all good buffers against what is surely to be some economic upheaval in the months and year ahead.

It is an indeed an interesting time be a large public sector organization that employs hundreds of people. We have higher than normal attrition rates among our larger departments and no department or program is immune from the shifts we have all experienced in the labor market. This budget, and the operational efforts it supports, has a laser focus on improvements to the employee experience and making the county further cement its status as an employer of choice. We must reduce turnover, increase retention and further build the strength of our workforce through training and professional development. While money is just one of the tools and tactics an employer can utilize to recruit and retain competent and dedicated workers, it is of course an important one and the Board and I recognize the mandate we have to move the needle as it relates to the overall compensation and benefits package of our county workforce.

The year ahead will have some challenges. The recessionary economic environment, with the dual oddity of super-low unemployment and consumer spending reports beating expectations, may prove troublesome to the County, especially as it relates to Federal and State revenues, and most importantly the all-important sales tax revenue forecast. The aforementioned CNR situation will also need to be remedied.

Closing Commentary

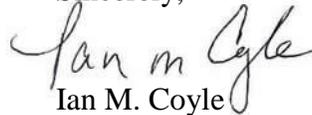

As we embark on another budget and calendar year, there is much to be excited about. Broadband efforts continue with a grant application in the works and fiber installations commencing on our previously funded projects. The LCWSA managed, ~\$50MM water expansion project is forging ahead. An ambitious group of individuals led by a pioneering entrepreneur are planning a state-of-the-art, multi-million dollar community and wellness center in Avon while the Dansville YMCA continues expansion. Major county capital projects are planned for, such as the fire training tower replacement and a Sheriff's Office training classroom. Our departments continue to win awards and be recognized by peers and professional associations for their leadership and excellence in public administration. ARPA dollars remain available for small and large-scale projects and one-time needs. And locally, and most importantly, we will continue the ongoing efforts dedicated to the financial and operational sustainability of the CNR.

This budget funds a vast array of county programs, services and departments. As I say every year at this time: In the local government arena in New York State (and likely nationally), there is no parallel to County government with respect to the depth, complexity, variety and diversity of service provision. This budget funds Pre-K special education services, community college tuition, public safety, election administration expenses, veterans' services, roads and bridges, senior nutrition / meals, and a robust hospice program as well as scores of other departments, programs, projects and initiatives. You should be very proud to be the elected officials of this excellent public service organization.

In concluding this, my fifteenth budget message, I would like to personally thank the County government staff for their commitment to dedicated service. Public service is a calling and you have answered the call to serve your community and for that I thank you.

This budget is fiscally sound, balanced and forward looking. I readily await its public inspection, review and eventual adoption.

Sincerely,

Ian M. Coyle
County Administrator
