II. Biographical and Background Information

Douglas Morgan served as the Lima Town Historian from January 2009 until November 2016. Long interested in local history, Doug photographed each gravestone in many cemeteries throughout Livingston County, New York, from 2004 through about 2006. Digital images were donated to the County Historian's Office in about 2011 and indexing of all legible stones was undertaken between 2012 and 2016.

III. Scope and Arrangement Notes

Most cemeteries in Livingston County are represented and documented in this survey, though some stones are no longer legible. There is some duplication in certain cemeteries; each stone is nevertheless indexed for names and dates where applicable and a searchable Excel database has been created. The digital images are numbered beginning at #1 for each cemetery, and cemeteries are arranged alphabetically by town. The Excel database index is organized alphabetically by town and then cemetery name, and the corresponding photo numbers link names to image files.

CDs have been migrated so digital files are stored on a networked server as of 2025.

Known inconsistencies include:

- The Lima Methodist Cemetery combines both burials in the Methodist and College Cemeteries, also sometimes known as the Old Methodist and New Methodist Cemeteries;
- The West Sparta Union Corners Cemetery images are on the Mt. Morris Cemeteries CD;
- The Mt. Morris Old Cemetery is mislabeled on the CD as the Mt. Morris Pioneer Cemetery;
- Individual images in the Dansville Kidd Fronk and Dansville Green Mount Cemetery may be interchanged by mistake due to labeling confusion;
- Springwater Fort Farm Cemetery has no photos of gravestones.

Some cemeteries in the index, including all Avon, Caledonia, and Conesus cemeteries, Glenwood and Sonyea (Craig Colony 1909-1979) Cemeteries in Groveland, and Toggletown Cemetery in the town of York, do not have dates associated with the names because at this stage in the indexing process it was not thought necessary to include dates. As the project progressed, dates were included in the index to facilitate the identification of persons being sought via the index. Occasionally, dates will be added to the index if specific images are accessed.

Green Mount Cemetery in North Dansville was not photographed in full as it is too large and some images of gravestones in this cemetery can be found on FindAGrave.com. Grave listings to the present are available via www.paintedhills.org. There are just 105 images from Green Mount in this photograph survey collection. Several other cemeteries were photographed, but names were not indexed. They include the following:

- Geneseo County Home Cemetery (along Volunteer Road; only initials on stones)
- Geneseo Livingston County Cemetery (behind County Home; no names, only numbers)
- Geneseo Temple Hill Cemetery (photographed but not indexed because there is a good photograph database on the cemetery's website, TempleHillCemetery.com.)
